

Priv8Apps

PRIVACY-FIRST APPS FOR IPHONE, IPAD AND MAC

No ads. No tracking. *No kidding.*

— ABOUT THE STUDIO

Priv8Apps is one developer making small, sharp Apple apps that do one job properly and keep your data on your own devices.

There are no accounts, no ads, no analytics or tracking SDKs, and no servers, so there is nothing to sell, leak or hand over. Every app we've shipped carries the App Store's "Data Not Collected" label. That's Apple's label, not our marketing, and anyone can check it in ten seconds.

Two promises run through all of them. Where iOS won't allow something, the app says so instead of faking a number. And in every state, whether trial, paid or lapsed, you can export everything you made.

The developer. Priv8Apps is built by Ray, an IT security professional, on evenings and weekends. He builds the privacy-first tools he wanted to use himself.
